1. UVOD

1.1. Korišćeni programski jezici

Za izradu sajta korišćeni su HTML 4, CSS3, JavaScript, jQuery, AJAX i JSON. Program u kom je pisan kod je Visual Studio Code.

1.2. Opis funkcionalnosti

Sajt ima sledeće:

Na svim stranicama meni i ikonice u futeru se učitavaju dinamički pomoću AJAX-a iz JSON fajlova.

U JSON-u film.json, glumci i pisci su sačuvani kao običan niz jer se sa njima ništa konkretno ne radi, služe samo za ispis.

1.2.1. Index.html

- Na vrhu stranice nalazi se dinamički učitani slajder iz JSON fajla.
- Link Filter na koji kada se klikne animacijom se pojavi div u kom se nalaze padajuće liste i checkboxovi za filtriranje i sortiranje.
- Dinamički učitani flimovi iz JSON fajla sa dugmetom "Add to watchlist" na koje kada se klikne izabrani film se čuva u LocalStorage-u i ispisuje na strani Watchlist.
- Slika i naziv filma su link koji vodi do stranice na kojoj se nalazi više informacija vezanih za izabrani film.
- Forma za koju je urađena validacija kroz JavaScript.
- Deo sa slikom autora i kratkom biografijom.

1.2.2.Watchlist.html

- Kada je stranica prazna ispisuje se obaveštenje i link za vraćanje na početnu stranu.
- Kada korisnik klikne na dugme “Add to watchlist”, koje se nalazi na strani index.html, na stranici se ispisuje izabrani film uz pomoć filtriranja i LocalStorage-a.
- Sve informacije ispisane za film su iz JSON fajla.
- U gornjem levom uglu tabele nalazi se broj filmova na stranici koji se menja dodavanjem i brisanjem filmova.
- U gornjem desnom uglu nalazi se padajuća lista za sortiranje dodatih filmova.
- Svaki film se može izbrisati iz watchliste klikom na dugme “Remove”.

1.2.3.Film.html

- Klikom na sliku ili naziv filma na stranici index.html, otvara se stranica film.html, na kojoj postoje dodatne informacije vezane za film, koje su iz JSON fajla.
- Na stranici se radi filtriranje na osnovu id-ja prosleđenog u url adresi.
- Korisnik na ovoj stranici može oceniti film, ali samo jednom. Njegova ocena se čuva u LocalStorage-u.

1.3. Template

Za sajt nije korišćen gotov template.

A poor family, the Kims, con their way into becoming the servants of a rich family, the Parks. But their easy life gets complicated when their deception is threatened with exposure.

2. ORGANIZACIJA

2.1. Organizaciona šema

Sve stanice na sajtu su međusobno povezane. Postoji jedan izuzetak, ukoliko se na strani watchlist ne nalazi ništa, ne može se pristupiti strani film.html.

2.2. Mapa sajta

```

  <priority>0.8</priority>
</url>
</urlset>
```

2.3. Stranice

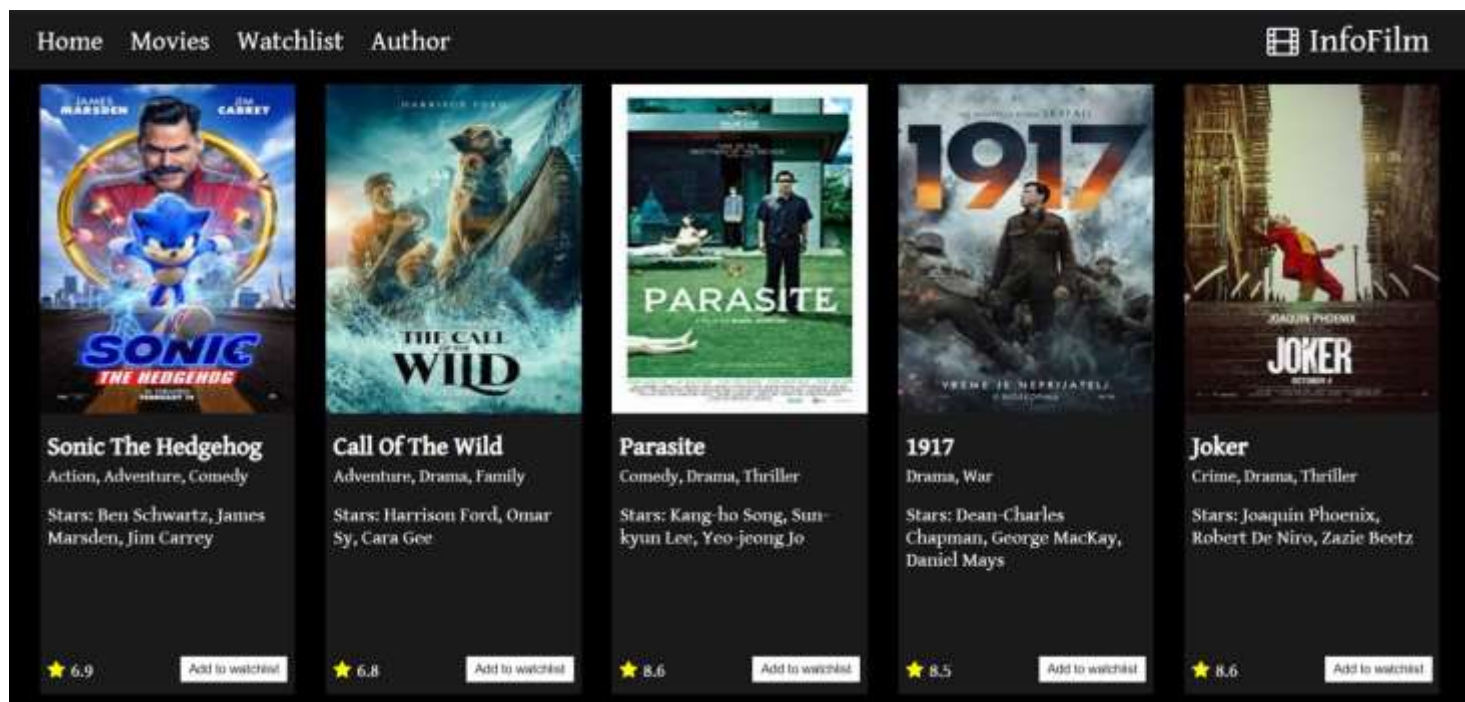

Na svim stranicama meni je učitán dinamički pomoću JavaScript-a, JSON-a i AJAXA. U JSON fajlu menu.json sačuvan je tekst i putanja do koje linkovi vode. Napravljena je funkcija u JavaScriptu koja dinamički ispisuje li elemente u listu i koja se poziva u AJAX-u koji dohvata podatke iz napomenutog JSON fajla.

Ikonice u futeru takođe su učitane dinamički na svim stranama. U JSON fajlu ikonice.json sačuvane su klase za ikonice (npr. fa-instagram) i putanja. Funkcija koja ih ispisuje se poziva u AJAX-u kojim se podaci dohvataju iz JSON-a.

Index.html

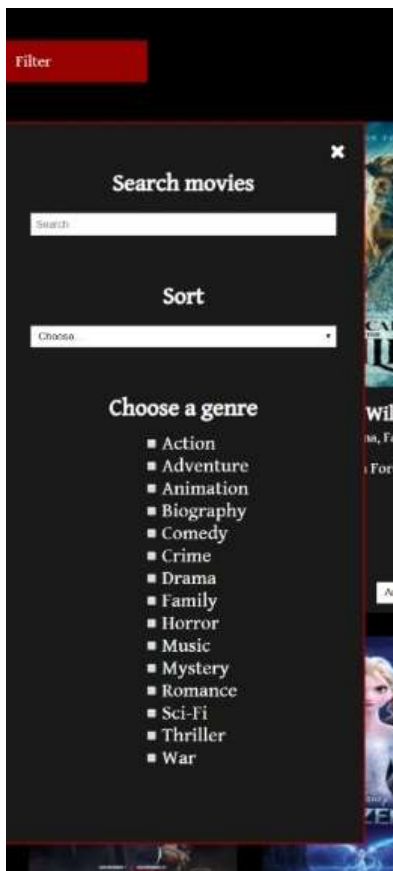

Na vrhu početne stranice nalazi se slajder u kojem se sadržaj menja na svakih 10 sekundi i koji je urađen pomoću jQuery-ja. Sve informacije dohvataju se AJAX-om iz JSON fajla filmovi.json i ispisuju pomoću funkcije u JavaScript-u. U JSON-u postoji svojstvo "slajder" kojoj je boolean i na osnovu njega se filmovi prikazuju u slajderu. Klikom na naziv filma ili na dugme "See more" odlazi se na posebnu stranicu na kojoj se nalaze dodatne informacije za izabrani film.

Ispod slajdera ispisani su filmovi. Oni se ispisuju dinamički kroz JavaScript, informacije se dohvataju AJAX-om iz JSON-a [filmovi.json](#).

Za žanrove i glumce postoji funkcija koja vrši obradu i dodaje zarez, koja je takođe korišćena za ispis glumaca i pisaca u slajderu. Slika i naziv su link koji vode do posebne strane za film.

Klikom na dugme “Add to watchlist”, id filma se čuva u LocalStorage-u i na osnovu njega se ispisuje sadržaj na stranici [watchlist.html](#). Kada se klikne na napomenuto dugme pojavi se popup prozor na kom piše poruka na osnovu toga da li je film već dodat u watchlistu ili ne.

Sa leve strane nalazi se link Filter na koji kada se klikne, animacijom urađenom u jQuery-ju, pojavi div koji sadrži liste za sortiranje i filtriranje.

Prva je pretraga koja je urađena na događaj keyup i filmovi se mogu pretraživati po nazivu filma i po imenima glumaca.

Nakon toga postoji padajuća lista za sortiranje filmova. Mogu se sortirati po nazivu, od a do z, po datumu, najnovije, po oceni, najbolje ocenjeno i po popularnosti, najpopularniji. Sve informacije se dohvataju is JSON-a.

Na kraju postoje checkboxovi za filtriranje po žanru. Žanrovi su dohvaćeni iz JSON-a, filtrirani tako da se uzmu samo različiti i ispisani funkcijom u JS-u. Može se čekirati više žanrova i takođe kada se neki checkbox odčeka ti filmovi se sklone. Sortiranje i filtriranje je povezano, što znači da ukoliko se prvo filtira, sortiraće se samo ti filmovi.

About author

My name is Aleksandra Markovic, I am from Gornji Milanovac and I am 20 years old. I study internet technologies at ICT college and I am interested in programming and design.

© Aleksandra Markovic

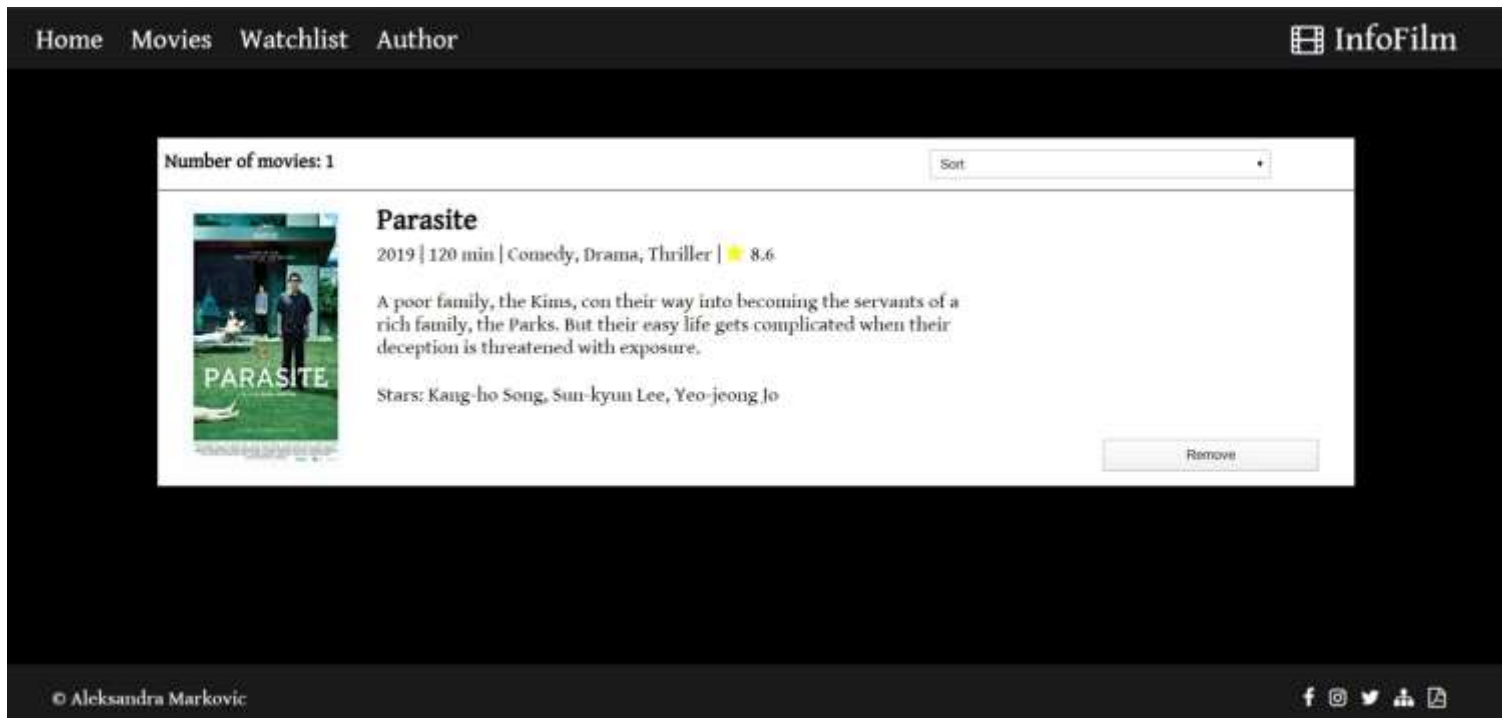

[f](#) [@](#) [t](#) [u](#) [p](#)

Na dnu početne strane nalazi se forma za kontakt i informacije o autoru.

Za autora postoji slika i kratka biografija.

Za formu je urađena validacija u JS-u. Klikom na dugme proverava se da li forma ispravno popunjena. Ako je prazna ili se ne slaže sa napisanim regularnim izrazima ivice inputa će pocrveneti. Kada se popuni kako treba iskoči popup prozor u kom piše da su podaci uspešno poslati i nakon toga forma se prazni.

Watchlist.html

U watchlisti se ispisuju filmovi koje je korisnik prethodno dodao klikom na dugme “Add to watchlist”. Takođe, kao i pre, sve informacije se dohvataju iz JSON-a.

U LocalStorage-u se čuva id na osnovu koga se filmovi filtriraju i ispisuju funkcijom u JS-u. U donjem desnom uglu, kod svakog filma, nalazi se dugme “Remove”. Klikom na njega film se briše iz LocalStorage-a i sklanja iz watchliste. Ukoliko je prazna, ispisuje se poruka.

U gornjem levom uglu nalazi se broj filmova koji se menja dodavanjem ili brisanjem filma.

U gornjem desnom uglu nalazi se lista za sortiranje. Mogu se sortirati isto kao na stranici [index.html](#).

★ 8.6/10

Your rating:

A poor family, the Kims, con their way into becoming the servants of a rich family, the Parks. But their easy life gets complicated when their deception is threatened with exposure.

Postoji jedna strana film.html, na njoj se sadržaj filtrira na osnovu informacija poslatih kroz url adresu. Ovoj strani se može pristupiti klikom na sliku ili naziv filma na početnoj strani kao i u watchlisti.

Sve informacije dohvaćene su iz JSON-a. Za ispis žanrova, pisaca i glumaca korišćena je gore napomenuta funkcija. Takođe postoji funkcija za ispis datuma.

Na ovoj strani korisnik može oceniti film. Ocena koju izabere čuva se u LocalStorage-u i prikazuje mu se i nakon ponovnog učitavanja stranice. On može oceniti film samo jednom, nakon toga polje za ocenu postaje disabled.
